MEMORANDUM

TO: Public Water System - Certificate of Achievement Recipient

FROM: Division of Municipal Facilities
Drinking Water Program

DATE: April 9, 2025

RE: Safe Drinking Water Act Certificate of Achievement

Public water systems, such as yours, are required by the Safe Drinking Water Act (SDWA) to take many actions to provide safe drinking water.

The SDWA was passed by Congress in 1974 to protect public health by regulating the nation's public drinking (potable) water supplies. Over the years, there have been a number of changes to the Safe Drinking Water Act. These changes have made it more challenging to maintain compliance. The North Dakota Department of Environmental Quality issues a Safe Drinking Water Act Certificate of Achievement as one way to recognize the public water systems that satisfied all applicable requirements during the previous calendar year.

In 2024, your public water system satisfied all applicable Safe Drinking Water Act requirements and is commended for this accomplishment from which their consumers benefitted.

To recognize your public water system, the Department has issued the enclosed Safe Drinking Water Act Certificate of Achievement. Please provide a copy of the certificate to each of your water system staff. Information is also enclosed for your consideration should you wish to pursue a local news story.

Congratulations on a job well done.
